

Searching by health category

The list of categories are on the home page.

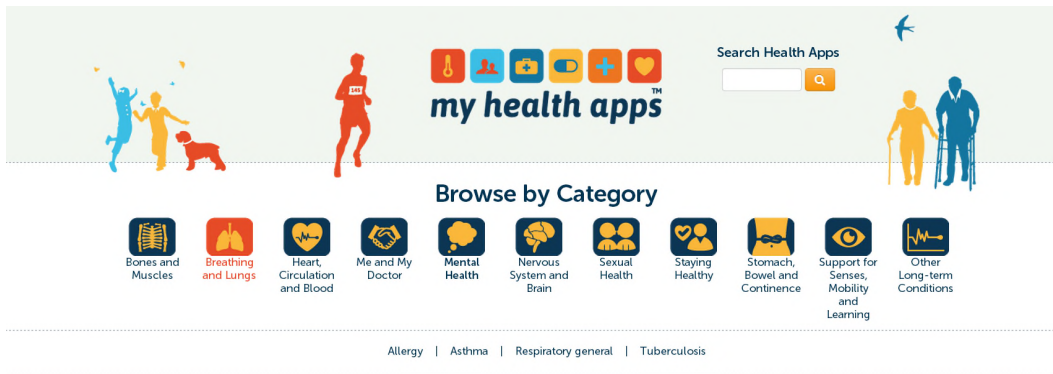

Click on the category that you think is most relevant to what you want.

For example, if you want to find:

- all the asthma apps, click on `Breathing and lungs`
- all the Alzheimer apps, click on `Nervous system and Brain`
- all the blood pressure apps, click on `Heart, circulation and blood`
- all the diabetes apps, click on `Other long term conditions`.

When you click on a category, the icon will turn red.

Below it, you will see all the conditions and topics in the health category you have chosen.

In the above example, the health category has four topics, including asthma.

Simply click on a topic to find apps relating to it.
